

Health Resources and Services Administration's Maternal and Child Health Bureau 10th Annual Federal Traumatic Brain Injury Program State Grantee Meeting March 15 & 16, 2007

Agenda

Learning Objectives:

The overall learning objective is to learn strategies for building and sustaining dynamic partnerships and collaborations in which the Lead Agency has a significant role in affecting the impact of the outcomes. To do so:

- Grantees will be able to identify strategies for building and sustaining dynamic collaborations with key stakeholders, organizations and agencies.
- Grantees will learn how they can use where they sit within State government and what can be done to move the issues of TBI forward from their position in the State.
- Grantees will be able to identify strategies for getting people on board to carry out the mission.
- Grantees will have an opportunity to showcase their products focusing on strategies, impact and outcomes.
- Grantees will be able to identify strategies used by States in developing a culture of evaluation for the TBI Program in their States and what impact and outcome these strategies have had.
